

**BUILT  
FOR  
THIS.™**

# IF IT'S WORTH DOING, IT'S WORTH DOING RIGHT.

You know that if something is worth doing, it's worth doing right. At Exmark, we share that commitment. To doing it right, even in the unrelenting heat and humidity of summer's peak.

At Exmark, we're building more than just mowers. We're creating a complete ownership experience from end-to-end, because owning a commercial mower is about more than just cutting grass. It's a relationship that should be beneficial for everyone involved.

Our commitment to you is to deliver an ownership experience that makes your business more efficient, profitable, and sustainable. To doing it right.

In partnership with our more than 1,600 independent dealers, our goal at Exmark is to provide you with the mowers and equipment you need to grow your business, and the dealer, financing, and parts support to keep it going strong year after year.

So, take on that big job, or go after a major new client, with the confidence that you have the equipment and resources to do the job right. You've got this.

You and Exmark mowers — **we're built for this.**

[exmark.com/built-for-this](https://exmark.com/built-for-this)

**BUILT FOR THIS.**

NEXT LEVEL INNOVATION BUILT FOR YOU  
**NEXT LEVEL INNOVATION BUILT FOR YOU**

## **STAND-ON PERFORMANCE**

Designed to take Exmark stand-on mower performance and productivity to the next level, we've added a full complement of deck sizes to the Vertex lineup. The all new **Vertex® X-Series** is available with 52-, 60- or 72-inch UltraCut™ Series 6 cutting deck, and a powerful Kawasaki FX1000 engine. With a low-profile design and easy to use controls, Vertex X-Series is stable, maneuverable, and comfortable to operate. And for those smaller jobs and gated yards, the **Vertex E-Series** compact stand-on mower is available with a choice of 32- or 36-inch UltraCut Series 3 decks. Vertex E-Series is a full commercial stand-on mower with its powerful Kawasaki engine. For contractors focused on tight urban properties, there's no better option.

## **AMPED UP FOR 2024**

We've expanded the lineup of commercial mowers for 2024 with our first electric riding zero-turn models: the HyperCell™ powered **Lazer Z® V-Series** and 60V powered **Quest® V-Series** machines. We've also added a 60V powered **Commercial 30 V-Series** walk-behind mower to the line, so now there's a complete line of electrified Exmark models for you to choose from. Each offers the signature cut quality and state-of-the-art battery power to deliver the performance you expect from Exmark, with reduced sound, zero engine exhaust emissions and reduced maintenance requirements. Whether you're looking for walk-behind, stand-on or zero-turn riding mowers, Exmark has a commercial electric mower to meet your needs.

### COMMERCIAL 21 V-SERIES FEATURES

# 60V POWER SYSTEM

Developed from our knowledge of gas-powered machines, with the same durability and cut quality you expect from Exmark. Our battery-powered mowers have a versatile power system with higher max performance and onboard intelligence to let you make the most of each charge. Featured on our new Commercial 30 V-Series walk-behind and Quest V-Series zero-turn rider, Exmark mowers utilize the professional-grade 10.0 Ah, 540 Wh Flex-Force batteries for maximum runtime and unmatched durability.

**ONBOARD INTELLIGENCE**  
Balances and optimizes power, runtime, and overload protection in real time, for peak performance in the toughest, most challenging mowing conditions.

**LOWER NOISE OUTPUT**  
Exmark's electric mowers operate below the 85dB threshold OSHA uses for hearing protection. These mowers are perfect for HOAs and other quiet zones.  
\*Exmark still recommends proper protective equipment for mower operation.

**60V 6-POD CHARGER**  
A 12-amp rapid charger enables you to charge up to six batteries to keep you charged and producing. Two charge modes: sequential rapid mode lets you charge a single 10Ah battery to full charge in just 50 minutes; and standard mode that steadily brings all batteries to full charge in unison.  
Standard on Quest V-Series. Available as an option for Commercial 30 V-Series and Commercial 21 V-Series models.

### VERTEX V-SERIES FEATURES

**Electric Series 4 Deck**

Hours Runtime

# HYPERCELL POWER SYSTEM

The extreme demands of powering commercial stand-on and zero-turn mowers requires a more advanced, robust solution — the HyperCell power system. HyperCell is purpose-built to deliver the power you expect from gas-powered equipment in a quieter, zero engine exhaust emissions electric commercial mower. The future is now, and the power is in your hands. Are you ready?

**THE BEST CELLS**  
HyperCell batteries start with the same high-energy, high-quality battery cells used by leading electric automakers, so you can have confidence in their safety and durability.

**SUPERIOR RELIABILITY AND LONGEVITY**  
We third-party test each of our machines and require each to pass exhaustive environmental and UL testing, so you can be sure your Exmark electric mower will be ready to perform when there's work to be done.

**PATENT-PENDING BATTERY DESIGN AND BATTERY MANAGEMENT SYSTEM (BMS)**  
We pair the state-of-the-art Hypercell batteries with our patent-pending distributed Battery Management System (BMS). Engineered specifically for the demanding needs of Exmark commercial mowers, the BMS enables Exmark electric commercial mowers to run for up to seven hours between charges, even in tough conditions.

**PRODUCTIVITY.  
COMMERCIAL DURABILITY.  
EASE OF USE.**

**FEATURES**

**5-inch Deep Cast Aluminum Cutting Deck**  
*2-in-1: Bag and Mulch*

**Commercial-Grade Engines**  
*Honda® or Kawasaki®*

**Patented Front Height Adjustment System**  
*Eliminates pivot-style adjusters, now with improved grips for added comfort on height-of-cut adjustments*

**Infinite Speed Control**  
*Multi-zone transmission provides infinite speed control from zero to 4.2 mph*

**Multiple Blade Options**  
*The option of five blade choices gives you the flexibility to customize for your unique cutting conditions*

# COMMERCIAL 21 X-SERIES

Known for getting the job done faster, and better, Exmark's commercial-grade 21-inch walk-behind mowers deliver an unmatched quality of cut—and years of worry-free service—that have become the industry benchmarks. Recent design features like the patented front height adjustment system and single-point rear height adjust provide even more versatility when mowing.

**EASE OF USE**  
The Commercial 21 has simple, straightforward controls and a lightweight, durable cast aluminum cutting deck, which reduces weight and eases maneuverability.

**THE EXMARK SIGNATURE CUT**  
The true test of a mower is the cut quality it delivers. The Commercial 21 is engineered to consistently deliver an unmatched quality of cut, whether mulching or bagging. A variety of optional blades let you further optimize performance for your specific cutting conditions.

**UNMATCHED PERFORMANCE.  
MANEUVERABILITY.  
COMMERCIAL DURABILITY.**

**FEATURES**

**4.6-inch Deep Cutting Deck**  
3-in-1: Bag, Mulch or Side-Discharge

**Commercial-Grade Engines**  
Kawasaki or Kohler®

**Blade Brake Clutch (BBC)**  
Allows the blade to be engaged and disengaged without stopping the engine

**Patented Front Height Adjustment System**  
Eliminates pivot-style adjusters, now with improved grips for added comfort on height-of-cut adjustments

# COMMERCIAL 30 X-SERIES

If you're looking for even more productivity, but still require the maneuverability and cost effectiveness of a smaller walk-behind, step up to Exmark's Commercial 30. As the lightest weight machine in it's class this machine is agile enough to tackle any property. These Commercial 30 mowers deliver up to a 40% increase in cutting efficiency compared to a standard 21-inch mower—so you can cut more grass in less time.

**PRODUCTIVITY**  
Commercial 30 delivers the productivity of a larger walk-behind mower, with the versatility and maneuverability of a smaller machine. The 30-inch width of cut allows operators to cut 40 percent more with each pass than a 21-inch walk-behind mower.

**COMMERCIAL DURABILITY**  
For increased durability in commercial use, the Commercial 30 comes standard with heavy-duty side braces, an engine guard, a metal side-discharge cover and a 1-inch diameter front bumper.

## TOP ACCESSORIES

**Micro-Mulch System**

Accessories may not fit each mower model. Please visit [exmark.com](http://exmark.com) or check with your dealer on accessory fit-up for each model.

**QUALITY OF CUT.  
LONG-LASTING PERFORMANCE.  
ENHANCED CONTROL SYSTEM.**

**FEATURES**

**UltraCut™ Series 3 or 4 Deck**  
Side Discharge: 36 | 48 | 52 | 60

**Commercial-Grade Engines**  
Kohler or Kawasaki

**Patented Enhanced Control System**  
Natural, ergonomic hand position helps reduce operator fatigue

**Patented Belt Covers**  
Can be removed without tools for easy debris removal and quick belt access

# TURF TRACER®

The Turf Tracer is Exmark's premium wide-area, walk-behind mower, combining the productivity of larger cutting decks and hydro-drive components with the unmatched quality of a full-floating deck. They are engineered for speed, efficiency and durability, and always deliver a quality of cut that is second to none.

**LONG-LASTING PERFORMANCE**  
These hydro-drive models provide more control, instant response, and precise speed regulation with full-reverse and zero-turn maneuverability for unmatched productivity and durability.

**CONVENIENT DECK LATCH**  
Changing the height of cut has been made easy with the added deck latch. Rather than holding the deck while changing the height of cut, the deck will now lock into place making it easier on operators. (Not available on 36-inch decks.)

**VERTEX<sup>®</sup>**

With a complete range of models and sizes from 32-inches to 72-inches, the Vertex is the premier family of stand-on mowers for landscape maintenance professionals. From compact Vertex E-Series, mid-size Vertex S-Series and large-frame Vertex X-Series models, there's a Vertex that's right for your exact needs. Superior cut quality. Maximum productivity. Minimum maintenance. Vertex is purpose-built to make you more productive and profitable.

**LOW-MAINTENANCE DESIGN**  
Vertex models are designed to run all season without maintenance, virtually eliminating productivity killing in-season downtime. And standard semi-pneumatic caster wheels eliminate caster flats.

**QUALITY OF CUT**  
Each Vertex stand-on mower is engineered to deliver Exmark's Signature cut quality, so you can count on exceptional finish results every time.

# QUEST

No matter the job, it's always about using the right tools to do it right. So, if you're looking for professional-grade cut quality and performance in a premium residential zero-turn rider, look no further than Exmark's Quest mower lineup, including the all-new Quest X-Series. Once in the seat, you'll experience more commercial-grade features, comfort and durability, for less.

**COMMERCIAL-GRADE FEATURES**

Exmark's Quest is a premium entry-level zero-turn mower. The proven commercial features have been adapted for consumer use including the tires and fabricated deck.

**LESSTIME MOWING**

Quest mowers offer the value you need as a homeowner. Primarily used for your own property, you need the power, performance, comfort and fuel efficiency of a commercial mower.

# RADIUS

Our Radius zero-turn mowers are ready to make quick work of your biggest mowing jobs. Radius delivers commercial performance and reliability you can trust for commercial contractors and users seeking professional performance. Plus, with upgraded operator seats, more ergonomic controls, and larger, smoother riding tires, Radius models offer a smoother, more comfortable ride.

**EASY TO SERVICE**  
Operators can easily access the top side of the cutting deck, belts and spindles with the toolless, removable floor pan and belt shields. The welded jack receiver also allows quick access to the underside of the deck when combined with the optional jack.

**COMMERCIAL-GRADE ENGINES**  
All Radius models come with commercial-grade engines. S- and X-Series models feature heavy-duty, canister-style air filtration systems for extended filter and engine life.

**UltraCut Deck Technology**

Side Discharge: 48 | 52 | 60 | 72

Rear Discharge: 60 | 72 | 96

**Commercial-Grade Engines**

Kohler, Kawasaki or Vanguard®

**Hydro-Drive System**

Eliminated hoses and added tougher bearings, an improved cooling system and increased oil capacity.

**Adapt Technology**

Make quick adjustments to optimize quality of cut and performance in wet, overgrown, or lush conditions, or stemmy grasses and weeds. Available on select Lazer Z X-Series models.

# LAZER Z

For over 25 years, Exmark's Lazer Z has been considered the gold standard in commercial-grade, zero-turn excellence. Pro cutters and homeowners have aspired to experience their superior cut quality, productivity, durability and performance. Built for easier maintenance and longer life, our Lazer Z mowers are simpler, tougher and easier to operate.

**THE SIGNATURE CUT**

We've optimized the blade-tip speed of the UltraCut decks to perfect the distance and uniformity of clipping discharge. All the components in our deck work together to deliver the signature Exmark look, cut after cut. Job after job.

**MAINTENANCE MADE EASY**

Lazer Z mowers are engineered to have fewer things to inspect, lubricate, adjust and repair. With only four grease points and longer service intervals, thanks to the Oil Guard System (select models), your Lazer Z is always ready for the job.

## TOP ACCESSORIES

# BUILT FOR THE LAZER Z

## OIL GUARD SYSTEM

With extended oil change intervals of 500 hours, the Lazer Z X-Series with Oil Guard minimizes downtime and saves up to 60-percent on oil maintenance costs. Oil Guard-equipped engines also run 20-30 degrees cooler, for increased oil stability and longer engine life. The unique design enables faster, easier oil changes without tools or funnels.

## COST OF OWNERSHIP

Since initial cost is just a fraction of a mower's total cost over its lifetime, each Lazer Z model is engineered to minimize service and maintenance costs over time. From the fuel savings of the available EFI-equipped engines to the sealed, no-grease caster bearings and unitized hydro pump and wheel motors, each Lazer Z is designed to maximize uptime and reduce total cost of ownership.

## TRACTUS™ AIRLESS DRIVE TIRE

Available for select Lazer Z models, Exmark's exclusive Tractus airless drive tires eliminate flat tires and related downtime. With a similar ride quality to pneumatic tires, Tractus increases operator comfort, while the proven tread design offers superior traction and reduced marking on concrete.

## ADAPT™ TECHNOLOGY

Available on select Lazer Z X-Series models, our exclusive Adapt technology makes it easy to optimize cut quality for any mowing conditions. Adapt enables the operator to make deck rake adjustments easily without tools, from the operator seat, to customize deck performance.

## 96-INCH GAS-POWERED LAZER Z

Powered by a RED Technology-equipped Kohler Command PRO EFI air-cooled engine, the 96-inch Lazer Z X-Series features a durable UltraCut Flex Wing cutting deck. With a 48-inch center deck and two 24-inch floating wing decks, it makes quick work of the largest, toughest jobs, while delivering Exmark's signature cut quality.

## LAZER Z SUSPENSION PLATFORM

At Exmark, we're using our expert knowledge in operator comfort and ergonomics to make Lazer Z mowers more comfortable to use. The suspended operator platform maximizes productivity through increased operator comfort. Adjustable coil-over hydraulic dampers significantly reduce the impact of bumps and vibration, and the system is easy to adjust for operator size and weight.

## NEXT-GENERATION RED TECHNOLOGY

Next-generation RED Technology delivers increased machine efficiency, ease of use and long-term durability. This patented technology offers the ability to control mower power and efficiency with defined performance modes. The LCD display screen provides an easy-to-use interface for enhanced monitoring of vital mower functions, machine health monitoring, and operating and property statistics reporting.

## LAZER Z SEATING SYSTEM

At Exmark, we've taken comfort to a whole new level, becoming experts in the game-changing science of ergonomics. Our scientific methodology utilizes pressure mapping to analyze the fatigue factors of vertical and lateral motion, driving the development of mower comfort. We know that if operators are more comfortable, their businesses will be more profitable.

**PREMIUM DIESEL PERFORMANCE.  
LEGENDARY DURABILITY.  
MAXIMUM COMFORT & PRODUCTIVITY.**

**FEATURES**

Side Discharge: 60 | 72  
Rear Discharge: 72 | 96 | 144

**Commercial-Grade Engines**  
Yanmar®

**Hydraulic Deck Lift**  
Provides for easy cutting height adjustment and quick transport

**Reduced Maintenance**  
With an efficient and robust power-train system, these machines have less maintenance and longer service intervals. The tool-less belt access and removable floor pan makes servicing easy

# LAZER Z DIESEL

For a variety of reasons, the diesel-powered Lazer Z mowers may be the right choice for your cutting needs. They make quick work of the largest, toughest jobs and raise the bar for cut quality, operator comfort, fuel efficiency and ease of handling. Our large 144-inch flex wing deck is capable of mowing more than 11.5-acres per hour,<sup>1</sup> making it the most productive mower Exmark has ever built.

**BUILT FOR LARGE PROPERTIES**  
The robust engine power and large deck sizes make these mowers Exmark's most productive diesel machines ever. They are a great solution for universities, municipalities, and other sizable properties yet nimble enough to maneuver smaller landscapes.

**ENHANCED OPERATOR COMFORT**  
Operator comfort is critical to productivity. That's why we've worked so hard to reduce noise and vibration, and placed the operator seat in full suspension on ISO mounts—so you can go for hours.

**SIGNATURE CUT QUALITY.  
VACUUMING PERFECTION.  
RESPONSIVENESS AND CONTROL.**

**FEATURES**

**Full-Floating Fabricated Deck**  
*Rear Discharge: 42 | 48*

**Commercial-Grade Engines**  
*Kohler*

**Easy to Service**  
*Gas tank swings open for engine accessibility while drive belts are easily removed and installed without tools*

**Airflow flexibility**  
*The deck collection chute is a full six inches in diameter that combined with a large diameter blower, generates more airflow for better vacuuming and debris collection*

# NAVIGATOR

The Navigator, Exmark's signature fine-cut machine, has a patented fill reduction and large diameter blower allowing the operator to vacuum a perfectly mowed lawn in record time. The fill reduction system allows operators to quickly switch from dedicated bagging mode where they are collecting 100 percent of the clippings, to a fill-reduction mode where they are collecting half of the clippings while mulching the other half of the clippings. The center discharge deck is designed for two-sided trimming to more accurately control discharge, keeping flowerbeds and walkways free of clippings.

**OPERATOR COMFORT**  
The effortless "Feather Touch" steering controls, combined with a bolstered high-back seat, foam padded cushion and rubber seat isolators, add up to a comfortable ride that reduces operator fatigue—for all-day operation.

**DECK LATCH**  
Changing the height of cut has been made easy with the added deck latch. Rather than holding the deck while changing the height of cut, the deck will now lock into place making it easier on operators.

# BUILT FOR A SIGNATURE CUT

When it comes to durability, Exmark's UltraCut decks are among the strongest in the industry and set the standard for productivity and quality of cut. These UltraCut mowing systems are the ultimate in a floating deck for efficiency, quality of cut and rugged durability. Regardless of which one you choose, your mower will deliver the cut quality, durability and longevity you expect from Exmark.

## SERIES 2

Featured on our Quest E- and S-Series models, Series 2 decks are fabricated and welded of high-strength steel and optimized to deliver a professional cut quality in residential applications.

## ULTRACUT™ SIDE DISCHARGE

With formed and welded construction, sealed, maintenance-free spindle bearings and a full-floating design that precisely follows ground contours, UltraCut side-discharge cutting decks are designed to eliminate maintenance and reduce downtime. All components are engineered to work together to deliver the Exmark Signature quality of cut.

## ULTRACUT™ REAR DISCHARGE

The UltraCut Rear-Discharge cutting deck has counter-rotating blades for enhanced clipping dispersion with the ability to trim on both sides of the deck. Standard black side bumpers can be replaced with optional white bumpers, which are perfect for not leaving marks.

## ULTRACUT REAR DISCHARGE WITH FLEX WINGS

Our rear discharge with flex wing decks are the ultimate mowing systems when productivity matters, with available 96- or 144-inch widths. The Flex Wings are capable of articulating up to 20-degrees up and 15-degrees down to precisely follow ground contour, and they fold hydraulically to minimize trailering space. UltraCut Rear Discharge with Flex Wings cutting decks are engineered to not just be more productive, but also deliver the durability and Signature cut quality you expect from Exmark.

## ELECTRIC SERIES

Our 42-inch Electric Series 2 and 52-inch Electric Series 4 side-discharge cutting decks are fabricated and welded of high-strength alloy steel to deliver commercial durability and the Exmark Signature cut quality. High-torque electric spindle motors with cast aluminum spindle housings eliminate belts to deliver maximum durability with minimized maintenance.

## BUILT FOR COLLECTING

When it comes to collection systems, there's no 'one size fits all' solution. That's why we engineer our collection systems for the specific needs of your Exmark mower. Whether you need a non-powered bagger for residential use, or a commercial-grade UltraVac powered collection system to power through the toughest lawn clean up, Exmark has you covered.

### 2-BAG COLLECTION SYSTEM NON-POWERED

Fits: Quest

- Larger-diameter, smooth-bore discharge tubes
- Sturdy, large-capacity collection bags
- Durable, injection-molded hood
- Quick-attach deck boot
- Streamlined design for better trimming
- Low profile to get under obstacles easier

### 2-BAG COLLECTION SYSTEM POWERED

Fits: Radius and Vertex X-Series 52/60

- Cloth mesh bags with reinforced bottoms
- Full 8.0-bushel commercial capacity
- 5-blade steel impellers with sealed non-greaseable bearings

### ULTRAVAC 2- OR 3-BAG COMMERCIAL-GRADE POWERED COLLECTION SYSTEM

Fits: Lazer Z, Vertex X-Series and Radius (2-bag only)

- Switch between bag discharge and side discharge with quick-attach
- Less clogging with larger-diameter tubes
- Compact design minimizes trailer space for easy maneuverability
- Dust reduction with sealed hoods
- Two or three UltraVac discharge units (8 or 12 bushels)

### ULTRAVAC QUICK DUMP SYSTEM COMMERCIAL-GRADE POWERED COLLECTION SYSTEM

Fits: Lazer Z (excludes Diesel)

- Discharges grass quickly with one simple motion of the release lever
- Features a commercial-grade steel and polyethylene hopper with rear-discharge door (7 bushels or 11 bushels)

### 3-BUSHEL BAGGER

Fits: Large walk-behinds, stand-ons and most riders

- Lightweight, easy to attach

Lazer Z Diesel

UltraVac 2- or 3-Bag

UltraVac Quick Dump System

3-Bushel Bagger

Radius 2-Bag Collection System - Powered

Quest 2-Bag Collection System - Non-Powered

# THE EXMARK ADVANTAGE

## HERE FOR YOU FROM PURCHASE TO MAINTENANCE

*Exmark Fleet Programs* benefit loyal multi-unit commercial customers. We offer multiple program levels to help contractors of virtually any size. The *Mini Fleet* program offers smaller contractors a one-time discount on a single qualifying purchase. **Fleet Advantage** customers enjoy extended fleet benefits on every qualifying purchase, and with the *Fleet Renewal* plan, Fleet Advantage customers can extend their benefits with their continued loyalty. Public service agencies including municipalities, governments, non-profits, and schools can save on Exmark products by purchasing them through *OMNIA Partners'* cooperative purchase program. The Exmark *Honors Program* recognizes the hard work and dedication of our military personnel and first responders, giving qualifying customers an off-invoice discount on the purchase of select Exmark mowers. And through our partnership with *Equine Equipment*, equine owners can receive special savings on Exmark equipment to maintain their property.

OMNIA<sup>®</sup>  
PARTNERS

With every important investment, comes important maintenance and Exmark has you covered. We are the only company that owns the exact part specification for your machine that will help your machine maintain its Exmark's legendary quality and reliability. To purchase OEM parts, visit one of our 1600+ dealers or shop 24/7/365 online where the parts ship directly to you.

*Buy online at [Shop.exmark.com](https://shop.exmark.com)*

**EXMARK MFG. CO., INC.**

415 Industrial Row | Beatrice, NE 68310 | 402.223.6300 | [www.exmark.com](http://www.exmark.com)

<sup>1</sup> Many manufacturers use 100% efficiency ratings for sale purposes. Exmark believes an 80% efficiency rating is more representative of actual mowing conditions, as it allows for turns and overlapping. Formulas for calculating acres per hour: **100% efficiency:** MPH x width of cut ÷ 99 = acres per hour | **80% efficiency:** MPH x width of cut ÷ 124 = acres per hour

<sup>2</sup> For complete details, visit [exmark.com](http://exmark.com) or your local dealer.

<sup>3</sup>The gross horsepower of these gasoline engines was laboratory rated at 3600 rpm by the engine manufacturer in accordance with SAE J1940 or SAE J2723. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower.

<sup>4</sup>The gross horsepower of the 3TINV80FT was laboratory rated at 2600 rpm; the 3TINV88C was laboratory rated at 3000 rpm by the engine manufacturer in accordance with SAE J1995. As configured to meet safety, emission and operating requirements, the actual engine horsepower on these mowers may be significantly lower.

<sup>5</sup>Based on controlled laboratory testing of product. Runtime varies with load.

Products depicted in this literature are for demonstration purposes only. Actual products offered for sale may vary in use, design, required attachments and safety features. We reserve the right to improve our products and make changes in specifications, designs and standard equipment without notice and without incurring obligation. For additional product information including operation manuals, safety materials and warranty details, please visit [www.exmark.com](http://www.exmark.com) or see your dealer for complete details.
